FORMATION PACKERS & SHALE TRAPS

The formation packer or shale trap is molded to fit snugly over PVC or steel liner casing. A stainless steel adjustable clamp is used to secure the formation packer to the pipe. **This all stainless steel clamp is included in the below pricing.** The top portion of the cup is funnel shaped which allows it to function equally efficient in a wide range of hole diameters. The special compounded rubber is engineered for maximum elasticity which permits the funnel shape to compress into the smaller well bores without creating over-lays or folds in the rubber which could allow leakage or by-pass. It was also developed with a maximum strength characteristic which permits the cup to support above average static heads. The packer may be used for a number of applications such as a cavings catcher, cement slurry retainer for grout work or as a bad water seal. It can be installed on the liner pipe at the well site as a single sealing unit; however, if extremely bad wall conditions exists in the well, it is advisable to install three or more shale traps on the liner pipe at approximately two foot intervals.

DENVER STOCKED FORMATION PACKERS

\$ 16.35	2 x 5	Packer with clamp for 2-3/8" O.D. pipe x 5" hole size FP25WC
\$ 18.65	4 x 7	Packer with clamp for 4-1/2" O.D. pipe x 7" hole size FP47WC
\$ 27.25	4-1/2 x 8	Packer with clamp for 5" O.D. pipe x 8" hole size FP4128WC
\$ 27.25	5 x 8	Packer with clamp for 5-9/16" O.D. pipe x 8" hole size FP58WC
\$ 35.00	6 x 10-1/2	Packer with clamp for 6-5/8" O.D. pipe x 10-1/2" hole size FP61012WC
\$ 87.00	8 x 14	Packer with clamp for 8-5/8" O.D. pipe x 14" hole size FP814WC
\$ 124.00	10 x 16-1/4	Packer with clamp for 10-3/4" O.D. pipe x 16-1/4" hole size FP101614WC
\$ 174.00	12 x 20	Packer with clamp for 12 3/4" O.D. pipe x 20" hole size FP1220WC

**SPECIAL BG
MONITORING
FORMATION PACKER**

SPECIAL MONITORING GRADE FORMATION PACKERS

The Type BG Silicon based rubber formation packers are designed and manufactured for sensitive monitoring hole requirements. The special treated silicon based rubber compound is free of toxic materials and molded in a special section of the manufacturers' plant to help ensure a clean hole for sampling. The rubber compound has been tested by an independent lab and lab reports are available. These BG Monitor Packers are not a Denver stock item and will be shipped direct to you from the factory.

\$ 43.00	2 x 6-1/2 BG	Special monitor packer with clamp for 2-3/8" O.D. pipe x 6-1/2" hole
\$ 52.75	3 x 6 BG	Special monitor packer with clamp for 3-1/2" O.D. pipe x 6" hole
\$ 76.00	4 x 8-1/2 BG	Special monitor packer with clamp for 4-1/2" O.D. pipe x 8-1/2" hole
\$ 104.00	6 x 10-1/2 BG	Special monitor packer with clamp for 6-5/8" O.D. pipe x 10-1/2" hole

**K-PACKER
OR TRI-SEAL**

K-PACKERS / TRI-SEALS

These rubber K-Packers (sometimes called Tri-Seals) are designed to slip directly on to the outside of plastic pipe. The three rubber ribs form a seal out to the inside of another larger size of plastic pipe. Normally installed above a well screen to make a watertight seal between the smaller size slotted pipe and a larger size plastic solid casing. **THESE K-PACKERS ARE AVAILABLE IN AN ALMOST UNLIMITED SIZE RANGE (from 1-1/4" thru 16"). TO ORDER NON-STOCKED SIZES YOU MUST KNOW THE O.D. OF THE INNER PIPE AND THE I.D. OF THE OUTER PIPE.**

DENVER STOCK K-PACKER SIZES

\$ 15.95	2 x 4	K-Packer to slip on to 2-3/8" O.D. pipe and form a seal upto a 4" I.D. pipe KP24
\$ 34.50	4 x 6	K-Packer to slip on to 4-1/2" O.D. pipe and form a seal upto a 6" I.D. pipe KP46
\$ 35.25	4 x 6-1/4	K-Packer to slip on to 4-1/2" O.D. pipe and form a seal upto a 6-1/4" I.D. pipe KP4614
\$ 76.75	6 x 8	K-Packer to slip on to a 6-5/8" O.D. pipe and form a seal upto a 8" I.D. pipe KP68

SPECIAL ORDER "CG" MONITORING GRADE K-PACKERS

The Type CG Silicon based rubber K-Packers are designed and manufactured for sensitive monitoring hole requirements. The special treated silicon based rubber compound is free of toxic materials and molded in a special section of the manufacturers' plant to help ensure a clean hole for sampling. The rubber compound has been tested by an independent lab and lab reports are available. These CG Monitor K-Packers are not a Denver stock item and will be shipped direct to you from the factory.

\$ 27.50	1 x 2 CG	Special silicon rubber K-Packer to slip on to 1.315" O.D. and seal to a 2" I.D. pipe 12CG
\$ 27.50	1-1/4 x 2 CG	Special silicon rubber K-Packer to slip on to 1.660" O.D. and seal to a 2" I.D. pipe 1142CG
\$ 45.75	1 x 4 CG	Special silicon rubber K-Packer to slip on to 1.315" O.D. and seal to a 4" I.D. pipe 14CG
\$ 45.75	1-1/4 x 4 CG	Special silicon rubber K-Packer to slip on to 1.660" O.D. and seal to a 4" I.D. pipe 1144CG
\$ 49.00	2 x 4 CG	Special silicon rubber K-Packer to slip on to 2.375" O.D. and seal to a 4" I.D. pipe 24CG
