Page 36a

Ultraviolet light water disinfection systems are an effective way to provide yourself with bacteria free drinking water, without the taste and odor from the use of chlorine and other chemicals.

UVSL8 Safe Lite Economy Ultraviolet Disinfection System

\$ 375.00 The UVSL8 Ultraviolet water treatment system treats up to 8 gpm of water flow and is our most economical residential UV unit. The chamber is electro-polished Type 304 stainless steel. The UVSL8 water treatment unit is powered by a wall mounted ballast with a lamp on indicator and has an 8 gpm flow control to insure total treatment and disinfection of water flowing through the unit.

\$ 75.00 UVB4450 UV Lamp for Mdl UVSL8

\$ 42.00 UVQS476D UVSL8 Replacement Quartz Sleeve

UV15SE 15 gpm Standard Series Ultraviolet System w/alarm

\$ 715.00 The UV15SE ultraviolet water treatment unit treats up to 15 gpm of water flow. The treatment chamber is electro-polished Type 304 stainless steel and is designed for wall mounting. The UV unit has a sight port for safe viewing of the operation of the UV unit. A 15 gpm flow control valve is furnished to assure treatment of the entire water flow. The UV15SE has an electronic "lamp out" circuit board that provides a visual and audible alarm when a lamp outage occurs. The UV15SE unit also has an ON/OFF indicator light. The unit has an auxiliary output terminal for connection of an optional solenoid, which can shut off the water flow if the light fails. The optional solenoid shut off feature adds **\$ 130.00** to the unit price.

UV15SE

UV15W

UV15W 15 gpm Standard Ultraviolet System with Internal Wiper

\$ 955.00 The UV15W ultraviolet water treatment unit comes with a wiper system that allows you to manually clean the quartz sleeve without disassembling the unit. The UV15W unit will ship direct from the factory to you.

Special Order Higher Capacity Ultraviolet Light Disinfection Systems

UV24SE 24 gpm Standard Series Ultraviolet System with alarm like the UV15SE above, only with a 24 gpm flow rate. **\$ 1300.00**

UV24W 24 gpm Standard Series Ultraviolet System with a wiper for cleaning the quartz sleeve manually, like the UV15W above, only with a 24 gpm flow rate. **\$ 1770.00**

Commercial Ultraviolet Treatment High Capacity Water Disinfection Units

Commercial Ultraviolet High Capacity Water Disinfection systems are available on a special order basis. The commercial series ultraviolet disinfection units are built from Type 304 stainless steel which is electro-polished. They have a Nema 12 enclosure with a running time meter and an ON/OFF power switch.

UV Model	Description	Your Cost
UVC48	48 gallon per minute Commercial Ultraviolet Water Disinfection Unit	\$ 4245.00
UVC60	60 gallon per minute Commercial Ultraviolet Water Disinfection Unit	\$ 5115.00
UVC80	80 gallon per minute Commercial Ultraviolet Water Disinfection Unit	\$ 5800.00
UVC130	130 gallon per minute Commercial Ultraviolet Water Disinfection Unit	\$ 8235.00
