## MIDLAND ALL BRASS FLOAT VALVES

The Midland All-Brass float valves have a brass body with a precision machined seat for the guide to set into. A leather washer is on top of the guide, secured by a lid that attaches to the handle arm. The design gives you a positive shut off every time. By removing the two screws and connecting the handle in position perpendicular to that shown, the valve can be used on the side of the watering trough, instead of the bottom. 3/4" through 2" valves are now in our Denver stock, as indicated in bold type below. Other sizes are special order and require 2 to 3 weeks for delivery.

\$ 37.25	34MFLTV	<b>3/4"</b>	All Brass Reversible Float Valve
\$ 49.75	1MFLTV	<b>1"</b>	All Brass Reversible Float Valve
